

TARGET
GLASS HARDWARE FACTORY

2023 CATALOGUE

We sell to more than 100 countries currently.
We are making our best effort to support our customers.
Where you are, there we are.

Sincerity | Respect | Kindness | Concentration | Perfection
真诚 | 尊重 | 善良 | 专注 | 完美

About TARGET

TARGET is one of the leading Glass Hardware Manufacturers in China. TARGET has been dedicated to excellent Glass Hardware and professional customer service for our customers all over the world.

TARGET is capable of offering both OEM and ODM services. Any drawings or samples for original design is welcome for developing customized products. For Proprietary Products, we can provide Patents Protection.

Sincerity | Respect | Kindness | Concentration | Perfection

TARGET is innovative and open to fulfill the requests of customers from various brands all over the world. We are using advanced production lines and innovative technologies to assure high quality. Meanwhile, we also make earnest endeavor to guarantee proper cost control and on time delivery.

TARGET is a company with strong social responsibility for being deeply concerned with the energy saving and environmental protection. We also show solicitude for our employees by continually improving their working and living conditions.

真诚 | 尊重 | 善良 | 专注 | 完美

Workshop

Since the factory was established, we have been implementing a strict quality management system. In strict accordance with the quality requirements of the factory for production and processing, at the same time to meet every detail of the customer requirements, and strive to achieve perfection.

More new and advanced machines are used in the workshop, which include laser cutting machine, laser welding machine, automatic feeding machine, automatic polishing machine and etc. All these machines can ease workers' labour intensity and bring us even high production efficiency. We get benefits from improved technology and offer customer better choices.

In order to further enhance the competitiveness, We decided to carry out lean production management in 2020. With lean production management rolling out inside the factory, we succeeded in reducing lead

time within the production system as well as response time from suppliers and to customers.

Implementation of the 5S on the production site which is central to lean manufacturing. It gives us a workplace that is clean, uncluttered and well organized. It helps to reduce waste and optimize productivity. More over, it helps us to standardize the on-site practices, keeping things safe and efficient.

Lean production management has improved the management level of our factory, made us more confident and strong, surpassing most of our competitors, and further implemented the sustainable development

We are creative and ready to embrace challenges. Tell us your idea, we will realize it.

Product

TARGET With years of experience in Frameless shower door and Architectural hardware fittings, we have developed the excellent fittings to simplify the installation of glass. Thanks to the clever design by our technology team, installation is quick and easy now. The reliability of our products allows installation to be a combination of quality and beauty. We always want you to be happy with the products you use for years.

Why Choose **TARGET**?

QUALITY

- 100% inspection before shipment
- Details oriented, capable to meet your project demand
- High quality surface finish. More attractive
- Extremely precise dimensions and accurate tolerance

COMPANY STRENGTH

- 17,800 Square meters in our own factory
- 1,000 Varieties of products and one-stop supply
- 250 Staff members handle your orders
- 104 Countries international sales network
- 25 Years Experience of Professional Hardware Production
- 24 Hours to respond by E-mail
- 5S Production management system

CERTIFICATE OF HONOR

- SGS Certificate from MADE IN CHINA
- Certificate of **TARGET** & TG BRAND

You are always welcome to **TARGET**!

Choose TARGET, Choose success!

Welcome To TARGET. Your Supplier And Specialist Of Glass Hardware With Fantastic Quality And Excellent Customer Service.

TARGET specializes in the production of glass hardware accessories. With our efforts and development, TARGET has become the leading glass hardware supplier from a small factory during last 20 years. We have experienced sales team. We are professional and passional to serve our customers around the world. We are always providing a quick and reliable service.

This catalogue provides general idea what products we can produce, not all of our products. We can produce different products according to your needs, (OEM or ODM services). If you cannot find what you want from the catalogue, please contact our sales or send an email to: info@hardware.hk.cn

Internal View Of Shower Hinges

Heavy-duty hinges are available with square edges and bevel edges. Compare to popular standard shower hinges, heavy-duty shower hinges have the similar function but with bigger loading capacity. Heavy hinges offer good solution for wider and heavier glass doors that standard hinges can not support.

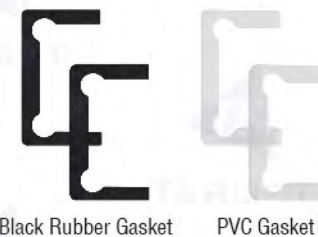

The hinge with two steel pins inside can meet two options of glass cut-outs: Mouse Ears and Square Corner cut-out. Heavy Duty Hinge let you provide an all-glass look shower door in an easy-to-install configuration. With four popular finishes, and attached pin.

Pin Rotates

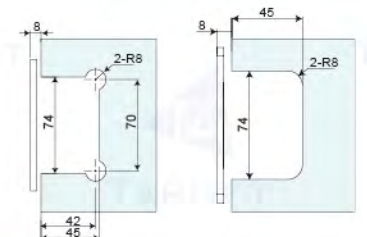

The standard pivot pins come with two sides. One side is marked at 90°. The other side is marked 85° which is available for off-angle installation.

Gasket Optional Kit for Hinges

Art. No. GC00-B1
Glass to Wall 90° Fixed Bracket

Material | Brass
Finish | Chrome / Brushed Nickel /
Matte Black / Gold
Gasket Type | PVC / Black Rubber / Asbestos

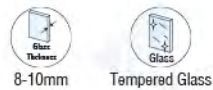

Art. No. GC00-B
Glass to Wall 90° Fixed Bracket

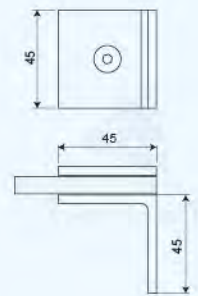

Material | Brass
Finish | Chrome / Brushed Nickel /
Matte Black / Gold
Gasket Type | PVC / Black Rubber / Asbestos

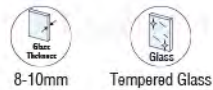

Art. No. GC90-B1
Glass to Wall 90° Fixed Bracket

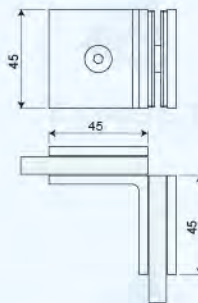

Material | Brass
Finish | Chrome / Brushed Nickel /
Matte Black / Gold
Gasket Type | PVC / Black Rubber / Asbestos

Art. No. GC90-B2
Glass to Glass Double Sided 90° Fixed Bracket

Material | Brass
Finish | Chrome / Brushed Nickel /
Matte Black / Gold
Gasket Type | PVC / Black Rubber / Asbestos

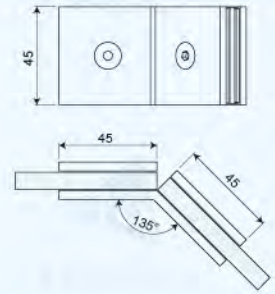

Fixed Bracket Standard Series

Art. No. GC135-B2
Glass to Glass Double Sided 135° Fixed Bracket

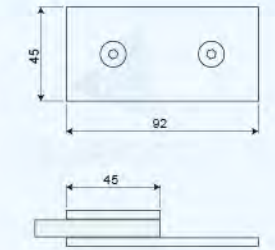

Material | Brass
Finish | Chrome / Brushed Nickel /
Matte Black / Gold
Gasket Type | PVC / Black Rubber / Asbestos

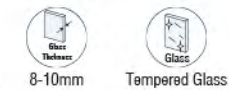

Art. No. GC180-B1
Glass to Wall 180° Fixed Bracket

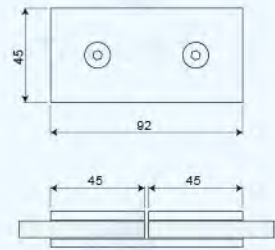

Material | Brass
Finish | Chrome / Brushed Nickel /
Matte Black / Gold
Gasket Type | PVC / Black Rubber / Asbestos

Art. No. GC180-B2
Glass to Glass Double Sided 180° Fixed Bracket

Material | Brass
Finish | Chrome / Brushed Nickel /
Matte Black / Gold
Gasket Type | PVC / Black Rubber / Asbestos

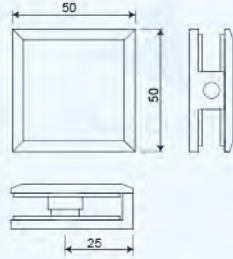

Fixed Bracket Standard series

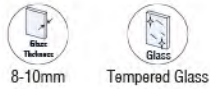

Art. No. GC00-C1
Glass to Wall 90° Fixed Bracket

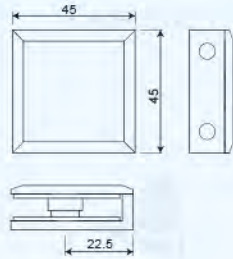

Material Brass
Finish Chrome / Brushed Nickel /
Matte Black / Gold
Gasket Type PVC / Black Rubber / Asbestos

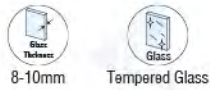

Art. No. GC00-C2
Glass to Wall 90° Fixed Bracket

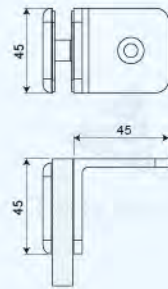

Material Brass
Finish Chrome / Brushed Nickel /
Matte Black / Gold
Gasket Type PVC / Black Rubber / Asbestos

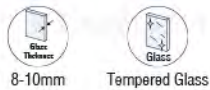

Art. No. GC90-C1
Glass to Wall 90° Fixed Bracket

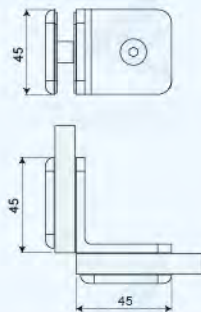

Material Brass
Finish Chrome / Brushed Nickel /
Matte Black / Gold
Gasket Type PVC / Black Rubber / Asbestos

Art. No. GC90-C2
Glass to Glass Double Sided 90° Fixed Bracket

Material Brass
Finish Chrome / Brushed Nickel /
Matte Black / Gold
Gasket Type PVC / Black Rubber / Asbestos

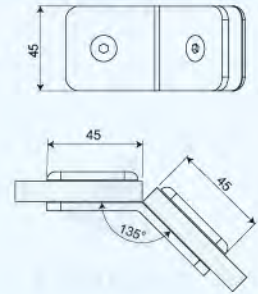

Fixed Bracket Standard series

Art. No. GC135-C2
Glass to Glass Double Sided 135° Fixed Bracket

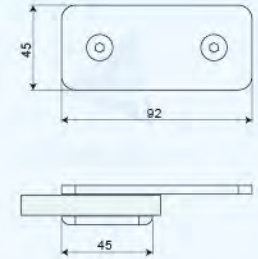

Material Brass
Finish Chrome / Brushed Nickel /
Matte Black / Gold
Gasket Type PVC / Black Rubber / Asbestos

Art. No. GC180-C1
Glass to Wall 180° Fixed Bracket

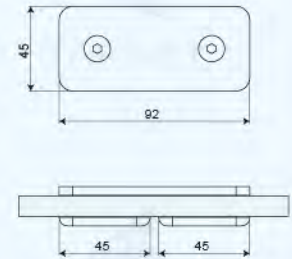

Material Brass
Finish Chrome / Brushed Nickel /
Matte Black / Gold
Gasket Type PVC / Black Rubber / Asbestos

Art. No. GC180-C2
Glass to Glass Double Sided 180° Fixed Bracket

Material Brass
Finish Chrome / Brushed Nickel /
Matte Black / Gold
Gasket Type PVC / Black Rubber / Asbestos

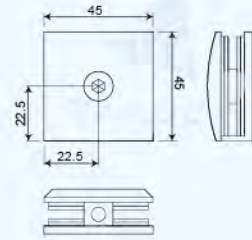

Fixed Bracket Standard series

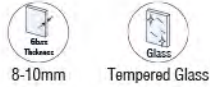

Art. No. GC00-D1
Glass to Wall 90° Fixed Bracket

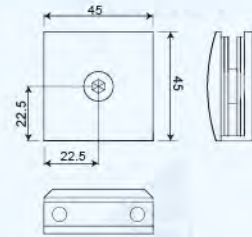

Material | Brass
Finish | Chrome / Brushed Nickel /
Matte Black / Gold
Gasket Type | PVC / Black Rubber / Asbestos

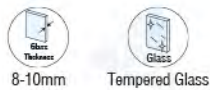

Art. No. GC00-D2
Glass to Wall 90° Fixed Bracket

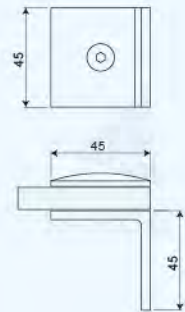

Material | Brass
Finish | Chrome / Brushed Nickel /
Matte Black / Gold
Gasket Type | PVC / Black Rubber / Asbestos

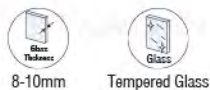

Art. No. GC90-D1
Glass to Wall 90° Fixed Bracket

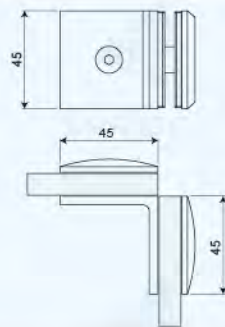

Material | Brass
Finish | Chrome / Brushed Nickel /
Matte Black / Gold
Gasket Type | PVC / Black Rubber / Asbestos

Art. No. GC90-D2
Glass to Glass Double Sided 90° Fixed Bracket

Material | Brass

Glass Shelf Clamps

Typical 90° Application

The SAC (Stabilizing Anchor Clamps) are used to help getting a very precise results in a very easy and convenient way when gluing two pieces of glass together by silicone. The clamps help to share the carrying of glass weight and performing as a stabilizing anchor that keeps the glass in position and allow the silicone to cure fully.

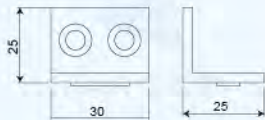

The clamps provide extra stability and rigidity for glass panels. There is no need for holes in the glass, simply tighten the grub screw and you are done.

-  Tempered Glass

- Standard 180 degree Kits Include**
- 2 x OF-W Roller
 - 2 x SC-1A Tube Connector
 - 1 x OF-P Safe Pin
 - 2 x OF-YA Fixed Clamp(track to glass)
 - 2 x OF-A-7 Door stopper
 - 1 x SKR-02 Glass door handle
 - 1 x OF-A-9 Floor guide
 - 1 x TB-25A L=2000mm (Header support bar)

Material	SUS304 / SUS316
Finish	Polished / Satin
Glass Thickness	8-10mm
Glass Fabrication Required	Holes required in fixed panel and door

Shower Kits OF-WS Series

- The OF-WS Sliding System has an entirely different look from traditional sliding shower systems.
- The use of minimal hardware provides a frameless look that gives the enclosure an almost floating appearance.
- This sliding door system comes with one fixed panel and one sliding door.
- Smooth and quiet operation is guaranteed by excellent shower door engineering and simple design.
- This sliding kit will absolutely make your bathroom more modern and bright as well.

- 1 x SF-01P L=2000mm (Header support bar)
- 1 x SF-04P Glass Door Handle
- 2 x SF-14P Floor Guide
- 1 x PS-27 Bottom Seal
- 1 x PS-11 Sliding Seal

Shower Door Header Kits

- The 360° pivot hinges are used at the top and bottom of the door. They can be mounted to top header for units that do not extend to ceilings.
- You can also use these hinges without the header if the glass is going all the way to the ceiling.
- Besides SL-100, we can offer header SFL-113 of different style for you.
- Accessories include a snap-in filler insert, adapter block, wall mount brackets and PVC Seal.

- Available Finished:
- Chrome / Brushed Nickel / Matte Black / Satin Brass
- Fixed Panel Thickness: 10mm
- Suggested Length: 3658mm / 2489mm / 1676mm

Sliding Barn Door

A barn door is more than a point of entry. A barn door offers a simple yet beautiful way to take the style of your home up a notch.

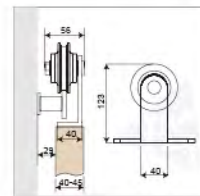

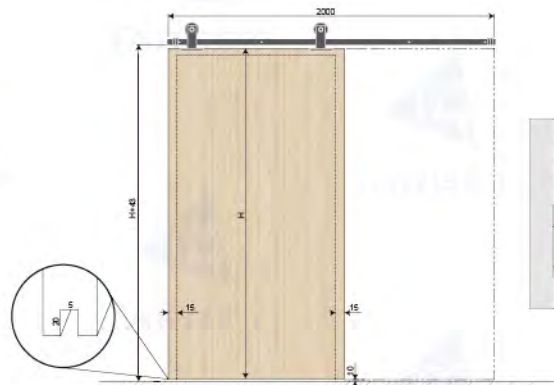

Material	Q235B (Iron)
Finished	Black
Door Thickness	40-45mm
Loading Capacity	100kg
Standard Track Length	2000mm

Art. No. OF-W-11

2 Meter includes:

- 2 x Rollers
- 2 x End Bumpers
- 2 x Anti-derailer
- 5 x Spacers (for installation between the wall and the rail brackets)
- 1 x Floor guide
- 4 x 500mm Rail

- For application of single or multiple sliding doors
- Fine powder coated surface ensures anti-corrosion and years of beauty and longevity
- Balance wheel for extra stabilizing
- Easy installation, smooth and quiet operation, long durability
- Suitable for residential and commercial environment such as hotel and office

Sliding Barn Door

A barn door is more than a point of entry. A barn door offers a simple yet beautiful way to take the style of your home up a notch.

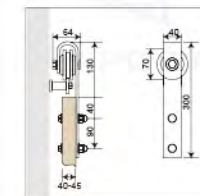

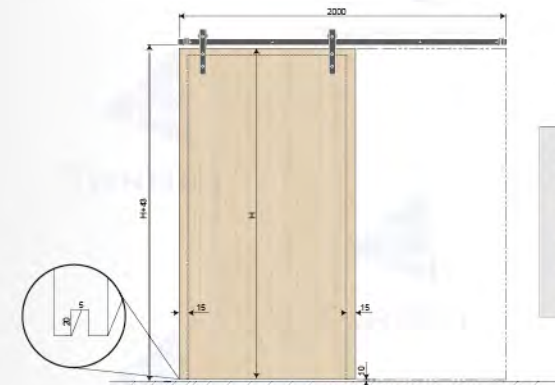

Material	Q235B (Iron)
Finished	Black
Door Thickness	40-45mm
Loading Capacity	100kg
Standard Track Length	2000mm

Art. No. OF-W-12

2 Meter includes:

- 2 x Rollers
- 2 x End bumpers
- 2 x Anti-derailer
- 5 x Spacers (for installation between the wall and the rail brackets)
- 1 x Floor guide
- 4 x 500mm Rail

- For application of single or multiple sliding doors
- Fine powder coated surface ensures anti-corrosion and years of beauty and longevity
- Balance wheel for extra stabilizing
- Easy installation, smooth and quiet operation, long durability
- Suitable for residential and commercial environment such as hotel and office

Sliding Barn Door

Our barn doors add a distinctive and interesting element to your home, and not only serve as doors for space partition but also present infinite design beauty.

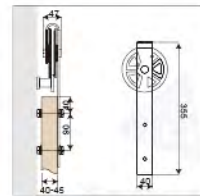

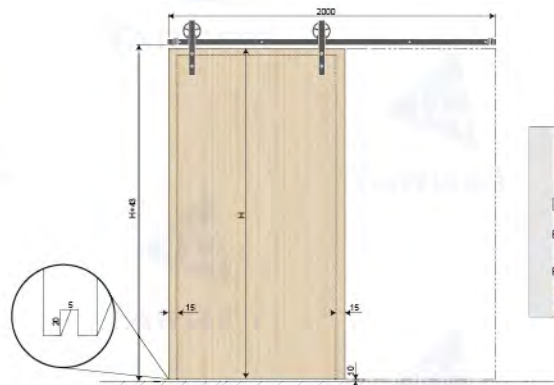

Material	Q235B (Iron)
Finished	Black
Door Thickness	40-45mm
Loading Capacity	100kg
Standard Track Length	2000mm

Art. No. OF-W-13

2 Meter includes:

- 2 x rollers

Glass Range of Sliding And Stacking Series

PK-001 SERIES

SLIDE AND STACK GLASS PANEL SYSTEM features a comprehensive combination of aluminium top track that facilitates flexibility in design layout.

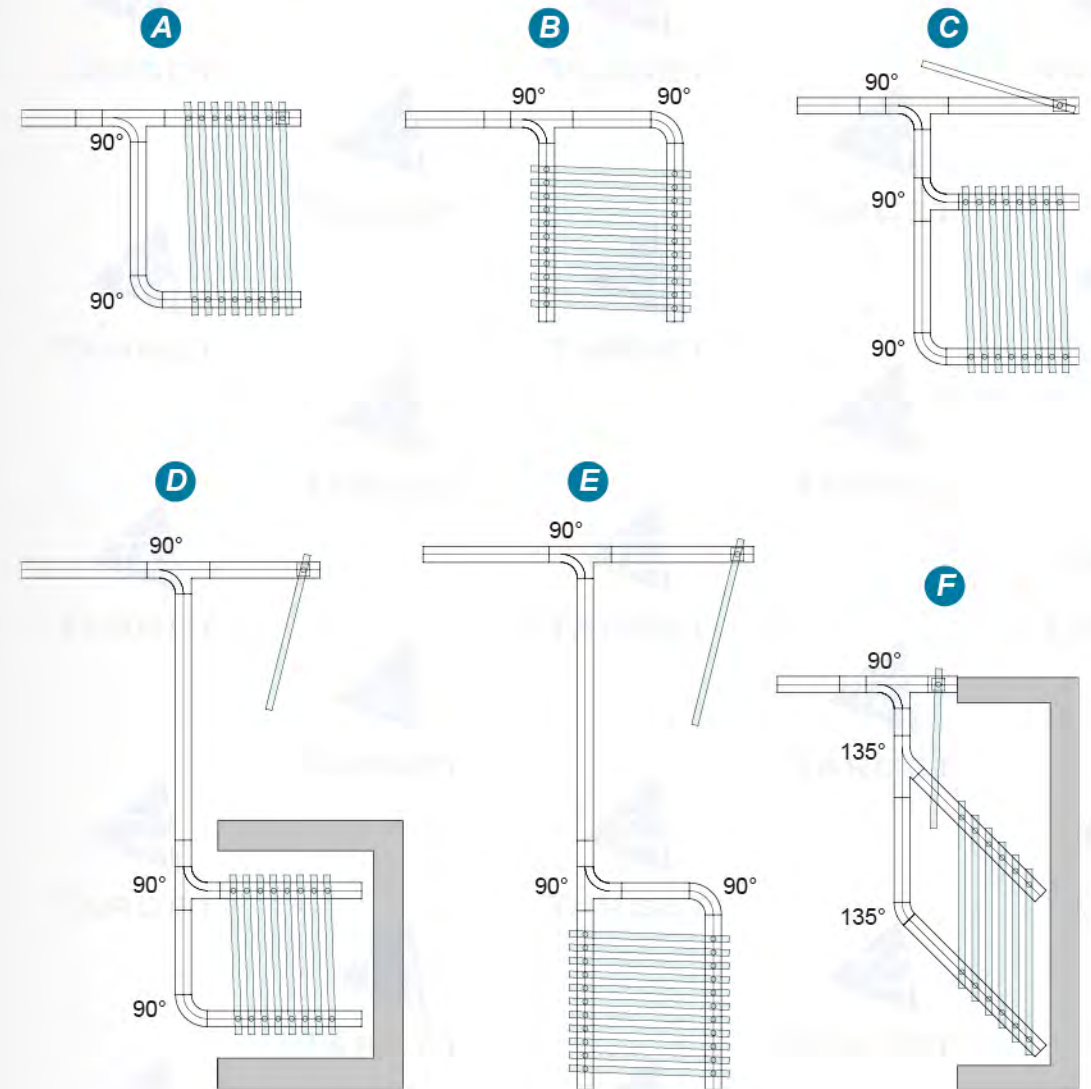

- Sliding stackable glass doors weighing up to 150 kg.
- Glass door width up to 1250mm and height up to 3500mm.
- No glass cut-outs needed.
- Installed without a bottom guide channel.
- Simple installation and immense flexibility thanks to a modular, snap-fitting track system.
- Specially designed for heavy-duty doors that call for a high degree of quality and precision.
- Smooth running and highly durable.

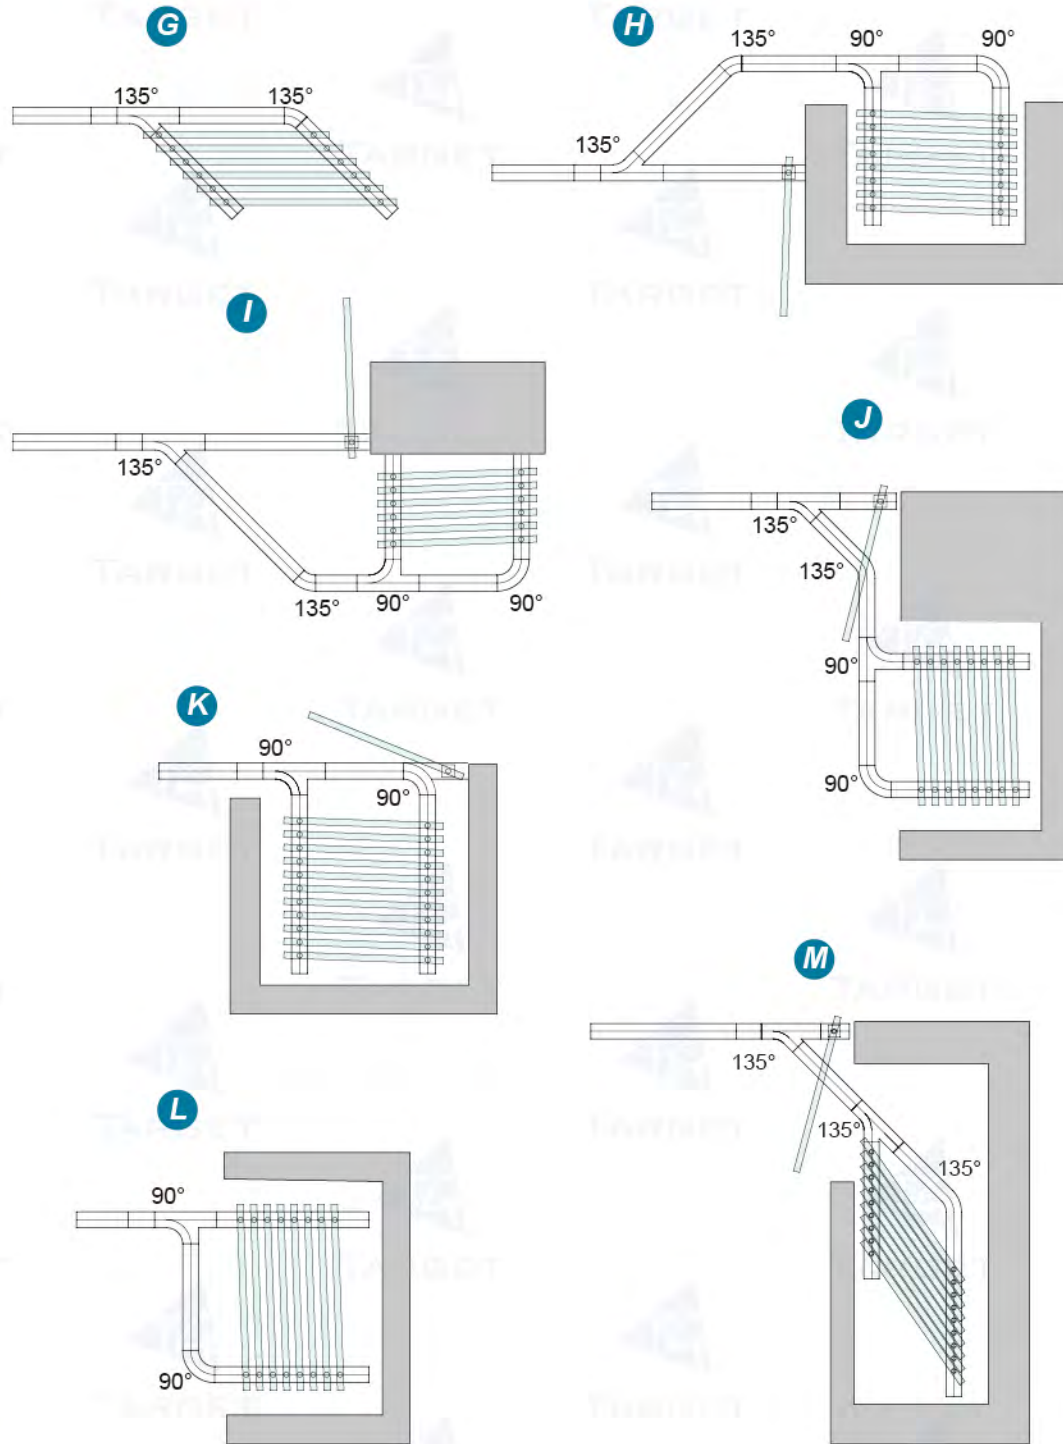

PK-001 SERIES

SLIDING AND STACKING SYSTEMS complement both maximum shopfront area and close customer proximity as you have a choice of various parking space layout to dock the individual frameless glass panels.

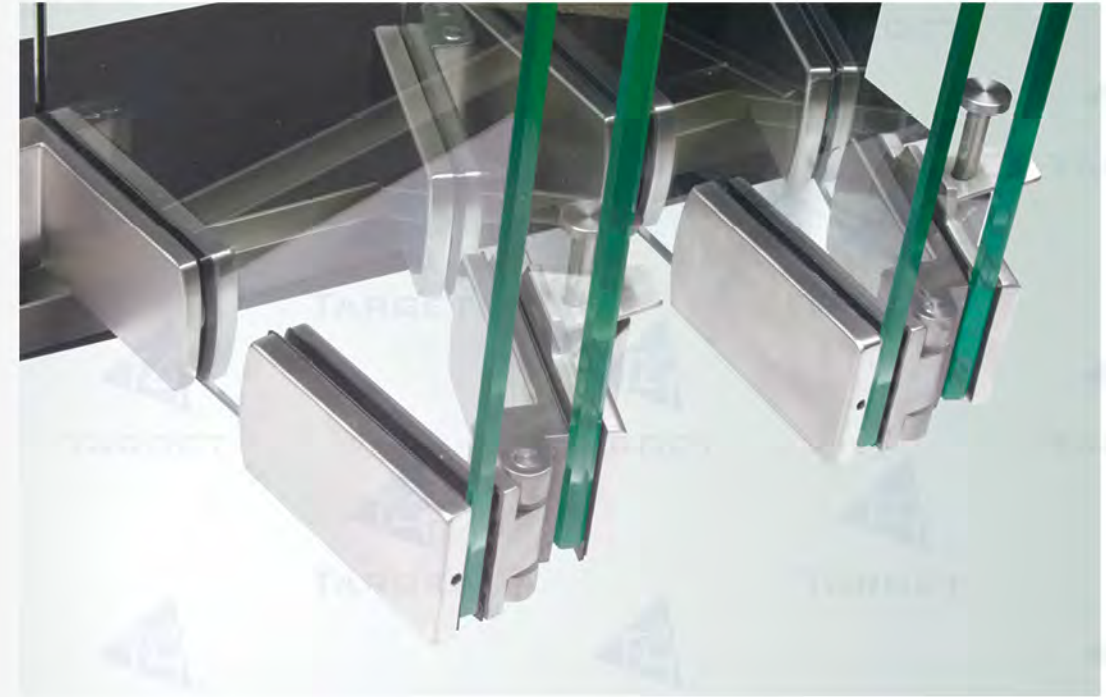

Examples Parking Areas

Examples Parking Areas

SW-T Series

This design originates from European design. This system makes for easier installation and adjustments after installation.

Quality

All metal components of the rollers and hinges are Stainless Steel to hold up to any environment. The rollers have ball bearing centers with nylon perimeter to give a lifetime of smooth operation.

The rollers ride in an Aluminium track at the top that is anodized satin. The guide rollers at the bottom of the doors ride in an Aluminium track incorporated into the threshold.

Practical

The system can be locked with a slide bolt or key turn and all components are corrosion resistant with satin finish. The hanger wheels are fitted with double sealed precision stainless steel bearings to ensure long life and smooth operation.

Point Supported Standoff Railing System

This system is used in several applications such as the perimeter of a terrace or the railing of a balcony. Using the same principle as the fixing spacers for glass, this system allows the installation of glass panels on the facade.

The brackets fixed to the wall plate allow the glass to be moved away from the surface. Excellent corrosion resistance for use in all outdoor installation projects.

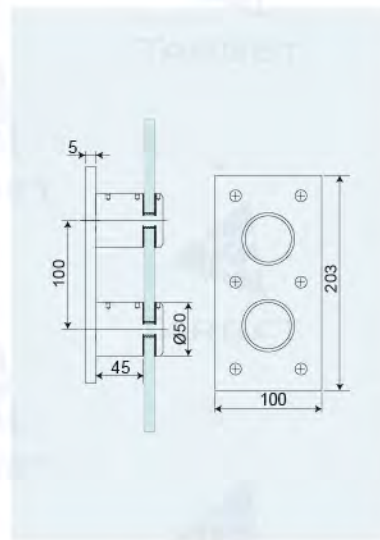

New

Art. No. OF-H-25
Round Double-Point Mounting Support System for Glass Railing

- 12-15mm

Glass UV Hinge

Art. No. FHG-011

UV Hinge

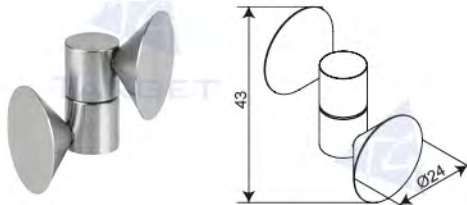

Material SUS304 / SUS316
Finish Polished / Satin

For UV gluing, opening angle 180°. max. load/pair 10 kgs. for doors with a glass thickness of 6 to 10mm. at least 28 mm must be allowed at the side of the cabinet for the door.

Art. No. FHG-001

UV Hinge

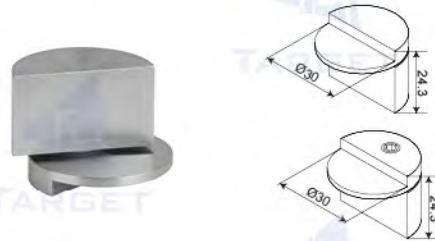

Material SUS304 / SUS316
Finish Polished / Satin

High quality stainless steel hinge suitable for inset doors. for glass thicknesses up to 12 mm and max. door weight of 10 kgs per pair of hinges. a threaded pin in the hinge allows the door to be removed after gluing.

Art. No. FHG-012

UV Hinge

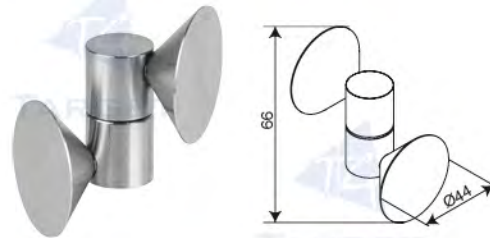

Material SUS304 / SUS316
Finish Polished / Satin

For UV gluing, opening angle 180°. max. load/pair 30 kgs. for doors with a glass thickness of 6 to 15mm. at least 52 mm must be allowed at the side of the cabinet for the door.

Art. No. FHG-002

UV Hinge

Material SUS304 / SUS316
Finish Polished / Satin

High quality stainless steel hinge suitable for inset doors. for glass thicknesses up to 12mm and max. door weight of 20 kgs per pair of hinges. a threaded pin in the hinge allows the door to be removed after gluing.

HANDRAILS FITTINGS

TARGET is manufacturing wide range of Handrail Kits that are combining the durability of Stainless Steel Components with innovative designs and engineering. These are ensuring the long-term structural integrity and enhance project aesthetics. TARGET has different Handrail Kits that are used in Indoor and Outdoor. Standard Handrail heights are 850mm and 1050mm, but it is also possible to order them in custom heights to meet customer's exact requirements. The Handrails are made of 304 or 316 Stainless Steel that can provide different surface treatments, and are ready for installation. TARGET will be very happy to cooperate with you for any special planning, design and request of Handrail Projects that we have. TARGET is there to provide all the necessary help and support to get the best results and perfect solution.

Glass Railing Aluminum Profile

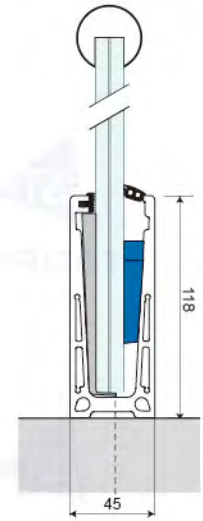

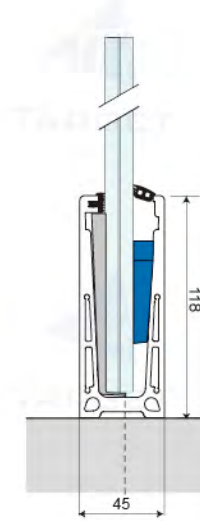

Glass Railing Aluminum Profile

- Made from high grade Aluminum material
- Available finishes in anodized or powder coated
- Easy-to-do clamp installation
- Compatible with 12mm to 21.52mm monolithic or laminated glass
- Glass and installation tools are sold separately
